STUDIO
COLLECTION™
A BRAND OF ARISTECH® SURFACES LLC

ALLURING.
ILLUMINATING.
DISTINCTIVE.

NEW Ebony Twist 8770

Lobby, Mary Parker Architectural Photography. The Wharf, Washington D.C. - Sirocco 8600

Transaction Counter and Wrap, Sixes & Eights Raman, Chicago, IL - Cat Eye 8330

Luxurious design resin material meets inspired innovation in the STUDIO Collection®.

Highly workable, durable and thermoformable, this collection expands the spectrum of design materials with brilliant chromas, natural neutrals and sparkling metallics that look and feel like nothing you've seen, and everything you desire.

Crafted from a proprietary resin blend, this premier design resin line stands out from all other surface choices for its unique combination of transparent, translucent and opaque polymers blended to create an endless world of design possibilities.

INNOVATIVE IDEAS, DEMAND INNOVATIVE MATERIALS.

CHROMATIX™

Custom color options available within four distinctive Design Series Collections.

Artisan crafted veining and movements throughout each sheet are as unique as their nature-inspired counterparts.

Airport Common Space, Sacramento, CA - Irish Bell 8606

We are committed to doing all we can to support the health and safety of our environment.

Chromatix™ Program
Now you can get our STUDIO Collection® Petals, Glass, Sea Glass Series or our recently launched Whimsy Series in your choice of any color. There are no boundaries when it comes to the endless combinations of color and light, that can make your design breathtaking and memorable.

Due to the unique production process used to produce our STUDIO Collection®, slight color variations may be present from sheet to sheet. Lighting for translucent products, whether ambient lighting or back-lit, can produce a variety of color effects depending on the light source (fluorescent, daylight, LED, etc.) and light temperature. The preferred type of lighting used will depend on the desired end result and should always be tested before final installation. STUDIO Collection® products are not intended for exterior use. Some translucent products are intended for vertical applications. Consult Fabrication Guide for horizontal use.
Dark colors may require more maintenance. Sample chips have Satin or Gloss finish. Sheets are supplied with factory finish.
